

競技会における競技用品について

IPC公認大会における下記の規則について、現在、使用している器具（義肢、競技用車椅子）で確認が必要な場合は、必ず、競技運営委員会に連絡をするようお願いいたします。プロトタイプ（オリジナル機器）の使用については、今後、IPCは厳しくなります。

3.3.2 Monitoring of the use of technology and equipment

The IPC Athletics Technical Delegate, or his designee, will monitor the use of technology and equipment at IPC Athletics Recognized Competitions so that it should not give an athlete an unfair advantage over their peers. This monitoring may include the assessment of:

- (a) Unrealistic enhancement of height of release in throwing events;
- (b) Unrealistic enhancement of stride length;
- (c) Whether or not equipment and/or prosthetic components are commercially available to all athletes (i.e. prototypes that are purpose built by manufactures exclusively for the use of a specific athlete should not be used at IPC Athletics Approved Competitions); and
- (d) The use equipment using materials that store energy and/or are designed to provide function to enhance performance beyond the capacity of an “able-bodied” athlete
